➢ CERTIFICATION

- IBM Cloud Application Development V1
- IBM IIB v9 Solution Development
- IBM WMB v8 Solution Development

➢ SKILLS

ACE v11	IIB v9/10	WMB v7/8
WMQ v9.1	WSRR v8	XSLT	XML
WSDL	XSD	Bitbucket	Bamboo
Urban Code Deploy	Borland StarTeam	
DataPower XI50	IBM API Connect v5	
IBM Bluemix	Java	HTML	CSS
JavaScript	AJAX	MySQL	ESQL

➢ PERSONAL STRENGTH

- Ready to accept any challenge in my task.
- Flexible and adaptive in nature.
- Have good interpersonal skills & work ethics
- Quick learner, ever learner, self-motivated & smart worker.

❖ EXPERIENCE SUMMARY

❖ Organization: Accenture India Pvt. Ltd.
➢ Designation: Team Lead (March 2022 – Present)

Job Description: I worked in a production support project for a Germany based CGS client. I was the Managed Service Owner (MSO) for GIB application which is entirely a client facing role and as per the job role I was responsible for keeping the whole system stable. I was the single point of contact for all production related issues. I had to understand the issue in business terms and explain the same to my team in technical way and vice-versa. Also, I had to lead a team of 8 members and train & guide them through the application.

❖ Organization: Ericsson India Global Solutions Pvt. Ltd.
➢ Designation: Senior Solution Integrator (January 2020 – February 2022)

Job Description: Being a part of development team, I was involved in designing, developing, unit testing, CR & bug fixing, delivery and warranty support for a KSA based telecom client. Being the only IIB resource in the organization, I mentored the whole team, and led the IIB development work. After successful completion of this project, I was involved in a Java L3 support project, as a sole resource, for a Norway based telecom client.

❖ Organization: Cognizant Technology Solutions India Pvt. Ltd.
➢ Designation: Associate (Apr'16 – Dec'19) & Programmer Analyst (Aug'13 – Apr'16)

Job Description: Just after joining the organization as a fresher, I went through training on Java, Dot Net and various middleware technologies. Then I started working for a USA based insurance client. In initial days, I was involved only in development & unit testing, and then gradually also started working in bug fixing, documentation, delivery, warranty support and designing. I received many appreciations and awards during this time. Also, I trained many new-comers in middleware technologies, framework, dev-ops and project activities.

❖ INNOVATION AND R&D ACTIVITY

- ➢ Developed **EAD Gateway Framework**, that accepts CMM messages from front-end system, converts it into any structure using XSLT and invokes back-end service. This is used by leading USA based insurance client.
- ➢ Developed a **Migration Framework**, that automates the migration process of customer data from legacy system, without any system downtime. This is used by leading telecom client in KSA.
- ➢ Created an XSLT Transformer Utility tool for implementing XSLT transform and some basic XML utility functions.
- ➢ Created a Visual Mapping Utility tool that maps XML to XML directly through UI and generates ESQL/XSLT code for that.
- ➢ Created a **Global Cache Utility** tool for implementing Create, Read, Update and Delete operations directly on global cache of message broker.

❖ AWARD & RECOGNITION

- ✓ Received Cognizant Shining Star Award in October 2015.
- ✓ Received Cognizant Shining Star Award in May 2016.
- ✓ Received Cognizant Associate of the Quarter in Q4 2017.
- ✓ Received Ericsson Rockstar Award in Q4 2020.
- ✓ Received Accenture ACE Award in 2022.
